
GOAL AND MISSION STATEMENT

WHY A NETWORK?

A statewide network could facilitate partnerships and produce collective energy and action focused on improving postsecondary access and success in Alaska. Network objectives would be to create synergy, reduce duplication of effort across membership, disseminate best practices and develop complementary messaging by state programs, agencies and organizations to encourage and support attainment.

Alaska Goal Statement

65% by 2025

Percentage of Working-Age Alaskans with a Postsecondary Credential

Network Mission Statement

Increase the percentage of all Alaskans who complete postsecondary education, particularly credentials relevant to a robust Alaskan economy.

Network strategies can begin to address Alaska's gaps in statewide messaging, K-16 communication, and professional development around postsecondary attainment - focus areas first identified at the [2013 summit](#).

STRATEGIES FOR ACCOMPLISHING MISSION

STATEWIDE MESSAGING

Increase Public Awareness of Workforce Needs and Postsecondary Attainment Gap

1. Strategy 1
2. Strategy 2

Increase Public Awareness of Postsecondary Options and Secondary Preparation Requirements

1. Strategy 1
