Outlook

Demand for this occupation will remain strong. The number of pets people own is expected to rise. In addition, pet owners are more likely to pay for expensive treatments than they were in the past. This will increase the work for veterinarians because they will do more procedures to treat pets. Veterinarians who work with small animals face competition, because many new graduates enter small animal medicine. The number of jobs for large animal veterinarians is expected to grow slowly. Advances in agricultural production have reduced the need for veterinarians to treat animals that
