ALL ABOUT YOUR VARIABLE INTEREST RATE

Alaska Supplemental Education Loans (ASEL), Federal Subsidized and Unsubsidized Stafford loans, and Federal PLUS and GradPLUS loans, awarded between the 2002-03 and 2005-06 academic years, have variable interest rates that are reset every July. Variable interest rates are effective July 1 of the current year through June 30 of the following year.

What is a variable interest rate?

A variable interest rate is one that changes periodically, based on current market conditions. Your ACPE variable-rate loans are reset on a yearly basis by the Alaska Student Loan Corporation using a process defined by Alaska Statute. Those same statutes require that variable interest rates will never exceed 8.25% for ASEL and Stafford loans, and 9.00% for PLUS/GradPLUS loans. Your interest rate will vary depending on whether your loans are in an in-school or repayment period. Your interest rate may also vary if there is a change in your eligibility for borrower benefits. The following table lists variable rates for loans awarded between the 2002-03 and 2005-06 academic years.

2024-2025 Variable Interest Rates (Effective 7/1/2024)

	24/25 In-school rate	24/25 Repayment rate
Federal Subsidized Stafford Loans	7.10%	7.70%
Federal Unsubsidized Stafford Loans	7.10%	7.70%
Federal PLUS/GradPLUS Loans	8.50%	8.50%
Alaska Supplemental Education Loans	7.90%	8.00%

All interest rates are calculated annually at the lowest possible rate. State loans are funded through the Alaska Student Loan Corporation, which issues tax-advantaged bonds so borrowers can qualify for lower rates.

Borrower Benefits

Loans that were awarded prior to July 1, 2018 may be eligible for certain benefits to help reduce student loan costs. These benefits are applied as quarterly or annual account credits, or interest rate reductions. Borrower benefits are subject to approval by the Alaska Student Loan Corporation (ASLC) and are made available as long as the ASLC has the financial capacity to do so. Benefits are not guaranteed. Borrowers who do not maintain a current repayment status may forfeit some or all benefits.
